

Desktop & Mobile Apps

The Videonor Connect Apps are downloadable on all your devices, and give you instant video connection with anyone, anywhere.

DESKTOP & MOBILE APP BENEFITS

Engage employees. Face to face meetings speed up the decision making process and increase productivity.

Show, don't tell. Screen sharing allows you to show projects and data for easy understanding and clear communication.

Keep the conversation moving. The Videonor Desktop App provides persistent chat and presence - shoot a quick note rather than play phone or email tag.

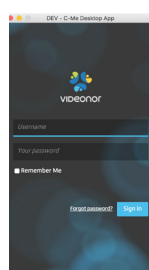

Decrease travel costs. Video conferencing reduces the need for business travel. Vet your prospects over video before making the important trips.

Make it your own. Our white label branding makes video pervasive in your organization.

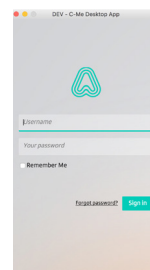

Gain access to top talent around the world. Choose the best partners for your projects no matter where they are world-wide.

EASE OF USE

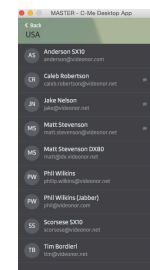

1. Download the Videonor Connect Apps to the device of your choice
2. Upload internal contacts through our directory service.
3. Now you are just the click of a button away from face-to-face meetings with anyone in the world.
